
	A2LA	
	1106 – Available Proficiency Testing Programs	Document Revised: February 08, 2018
	Page 1 of 18	

This list is by no means comprehensive, but merely includes contact information for proficiency testing programs of which A2LA is aware. This list is divided into those programs that are currently A2LA-accredited and those that are not A2LA-accredited. For those programs that are accredited by A2LA, please refer to their detailed Scope of Accreditation, located on the A2LA Website <https://www.a2la.org/dirsearchnew/newsearch.cfm>. We also encourage you to check the websites of our Mutual Recognition Agreement Partners for PT Providers accredited by them.

A2LA recommends that, whenever possible, A2LA-accredited testing and calibration laboratories use accredited PT Providers to meet the A2LA requirements for participation in proficiency testing. However, we recognize that accredited PT Providers may not be available for all technical disciplines, or that specific accreditation programs may mandate participation in other comparisons. Therefore, if there are no accredited alternatives available and if the samples offered by the non-accredited programs below are relevant to the work your laboratory performs, we recommend that you contact them to discuss enrollment options.

Participation in the programs noted with ** is required by specific A2LA programs of accreditation.

A2LA ACCREDITED PROFICIENCY TESTING PROGRAMS	
(Please refer to Scopes of Accreditation on A2LA website for more details.)	
Program/Contact	Types of Samples Offered
AASHTO re:source Frederick, MD USA http://www.aashtoresource.org/	Highway and Building Construction Materials (Soils Classification and Bases, Aggregates, Liquid Asphalts, Asphalt Mixtures, Emulsified Asphalts, Traffic Paints)
ACIL Corporation for EMC Proficiency Testing Inc. [ACE-PT Inc.] Washington DC, USA www.acil.org/ace-pt_inc	Electromagnetic Compatibility (EMC) Emissions Measurements
Advanced Analytical Solutions, LLC Parkersburg WV USA http://www.advancedqa.com/	Drinking Water, Non-Potable Water DMRQA

(Please refer to Scopes of Accreditation on A2LA website for more details.)

Program/Contact	Types of Samples Offered
<p>Duke University Medical Center – Duke Human Vaccine Institute Durham NC USA https://eqapol.dhvi.duke.edu</p>	<p><u>EQAPOL ELISpot EQA Program:</u> Sites receive cryopreserved peripheral blood mononuclear cells (PBMCs) and peptides (CMV and CEF). The PBMCs selected for each EP round have varying reactivities to the provided peptides. Sites run their in-house ELISpot assay to measure IFN-γ production. In addition, sites are provided with an EQAPOL ELISpot assay to run using the cells peptides.</p> <p><u>EQAPOL Flow Cytometry EQA Program:</u> For each EP round, EQAPOL provides all of the reagents to run each assay including: PBMCs selected based on their cytokine production following stimulation, stimulation plates containing lyophilized peptides (CEF and CMV) and staining plates containing lyophilized antibodies and all other necessary instrument set-up and staining reagents. Sites are required to run the assay using the EQAPOL provided kit and protocol. Currently the EQA program assesses proficiency using an 8-color Intracellular Cytokine Staining (ICS) assay that measures IFN-γ, IL-2, TNF-α and CD107a.</p> <p><u>EQAPOL Luminex EQA Program:</u> For each EP round, Luminex program participants receive a de-identified custom 5-plex Luminex-bead assay kit (blinded to the reagent manufacturer), which includes all necessary reagents to run the assay, from a vendor selected by CIC/NIAID. In addition to these kits, sites will receive 21 test samples containing known amounts of the five cytokines measured by the assay in a human AB serum matrix.</p> <p><u>Immunology Quality Assessment (IQA) North American Immunophenotyping Program:</u> For each IQA round, the program sends five whole blood samples to North American laboratories. Each site receives the samples then assesses CD3+CD4+ and CD3+CD8+ T cells absolute counts and percentages. Sites report data using the IQA web-based portal.</p>

For Clinical testing laboratories maintaining or seeking accreditation to the Clinical Laboratory Improvement Act (CLIA) Requirements, the Centers for Medicare and Medicaid Services (CMS) approves proficiency testing providers. A listing of these clinical proficiency testing providers can be found by following this link:

https://www.cms.gov/Regulations-and-Guidance/Legislation/CLIA/Proficiency_Testing_Providers.html

An addition resource for proficiency testing provider schemes is the database compiled by the Federal Institute for Materials Research and Testing (BAM) European PT Information System or EPTIS. Schemes on the EPTIS website can be searched by going to this link:

<https://www.eptis.bam.de/en/index.htm>

DOCUMENT REVISION HISTORY

DATE	DESCRIPTION
12/28/2016	Updated contact and scope information for several entries, added MYSA and SD Proficiency Testing.
11/15/17	Added new accredited providers and programs and removed unavailable providers. Reformatted to list organizations' name, general location, and website only.
02/08/18	Changed the link to the website for Deutsches Referenzbüro für Ringversuche und Referenzmaterialien GmbH to correct the link.
